

CETIN Group N.V.

The affirmation of CETIN Group N.V's and CETIN a.s. (CETIN)'s Long-Term Issuer Default Rating (IDR) and senior unsecured rating reflects that they are rated on a consolidated basis and in line with their consolidated Standalone Credit Profile (SCP) of 'bbb'. The SCP reflects CETIN Group's telecoms infrastructure asset portfolio and a wholesale-based business model with sizeable long-term, contracted revenues that provide strong visibility and stability to its cashflow

While CETIN Group's parent, PPF Telecom Group (PPF TG, BBB-/Stable), controls CETIN Group through its 70% ownership, we assess the linkage between the two as sufficiently weak so as to rate CETIN Group in line with its SCP but with a maximum one-notch difference to the consolidated profile rating of its parent.

Key Rating Drivers

Weak Linkage with Parent: Based on Fitch's Parent Subsidiary Linkage Criteria (PSL) our assessment of 'porous' legal ring-fencing and access and control leads us to rate CETIN Group in line with its SCP, albeit with a maximum one-notch difference to the consolidated rating profile of PPF TG. The one-notch difference balances weak linkage with high operational dependency on its parent (PPF TG accounts for over 95% of CETIN Group's revenues) and covenants that provide headroom and flexibility in accessing cashflow at CETIN Group.

CETIN Group has a 2.2x maximum net debt-to-EBITDA covenant based on the leverage of CETIN Group and O2 Czech Republic, another PPF TG subsidiary. Its EUR1,652 million of gross debt will account for over 70% of the combined entities' maximum 2.2x net debt-to-EBITDA.

Strong Operating Profile: CETIN Group operates the network infrastructure of PPF TG's operations in the Czech Republic, Hungary, Bulgaria and Serbia. The infrastructure principally consists of mobile towers, active mobile network components, backhaul networks and fixed local access networks.

In the Czech Republic, CETIN Group operates the incumbent fixed infrastructure. Its services are provided on long-term, 10-to-30-year contracts with CPI, foreign exchange (FX) and energy-price indexation and a fixed fee that we estimate accounts for about 50% of revenues. Additional services are provided at prices that allow CETIN Group to sustain a good return on capital employed.

Contractually Secured Growth: At 1H22, CETIN Group achieved year-on-year revenue growth of 9.7% and an EBITDA rise of 4.3% (excluding transit). The growth was mainly from mobile and is largely due to network modernisation, 5G roll-out, tower densification and increased tower co-location. We expect CETIN Group's strong and steady revenue growth to continue over the next four years (Fitch base case, about an annual 4% on average, excluding international transit services). A large proportion of this growth is contractually secured.

The growth will allow EBITDA-margin expansion as fixed costs are expected to rise more slowly.

Competitive Domestic Infrastructure Market: Competition in the Czech fixed, local access infrastructure market is increasing as T-Mobile builds out a fibre-to-the-home (FttH) network in partnership with CETIN Group in parts of the country. This increases the number of local-access network providers to four in certain regions, including cable and Wifi operators. We

believe CETIN Group's strategy to limit overbuild through its partnership with competitor T-Mobile is least value destructive.

However, as a wholesale customer this could mean a loss of revenue from T-Mobile unless it is offset by average revenue per user improvements from FttH deployment, growth in new wholesale customers due to a more competitive FttH product, and growth in mobile services.

FttH Deployment at Early Stage: CETIN Group plans to roll out FttH to 1.3 million homes by 2030, accounting for about 20% of total homes. Domestic fixed-line operations account for about 20% of total EBITDA but a higher proportion of capex. Competitive pressure resulting from the deployment of higher cable speeds and alternative network infrastructure, as experienced in some European markets, may necessitate a faster and broader deployment, leading to capex rises. The impact on leverage is, however, likely to be largely offset by the company's financial policy.

Stable Financial Profile: CETIN Group's financial policy is to manage company-defined net debt-to-EBITDA at 3.0x and to distribute up to 100% of free cash flow (FCF), subject to maintaining this leverage threshold and meeting capex requirements. Its leverage policy is comfortably within the 4.0x funds from operations (FFO) net leverage downgrade threshold of its 'bbb' SCP.

Fitch expects FFO net leverage to decline to about 3.0x over the next two to three years, from 3.4x at end 2021 and below the upgrade leverage threshold of the IDR. However, FCF generation is constrained by high capex, leaving cash flow from operations minus capex to trend below 8% of gross debt - a key threshold for an upward revision of the SCP.

Manageable FX Risks: CETIN Group's main borrowings are in euros while EBITDA is generated in other currencies, creating some leverage-mismatch risks. The risks do not have a big impact on the rating as about 59% of EBITDA is generated in the Czech Republic, and contracts with retail operations in Bulgaria, Hungary and Serbia allow for FX-indexation adjustments. The Czech koruna exchange rate with the euro has been stable and cashflows can be economically hedged.

Financial Summary

CETIN Group N.V.							
(EURm)	Dec 2020	Dec 2021	Dec 2022F	Dec 2023F

Rating Derivation Relative to Peers

CETIN's rating is equalised with CETIN Group's. This reflects our assessment of 'open' access and control and no legal ringfencing based on our PSL Criteria. As a result, both their IDRs are at the level of the consolidated profile of CETIN and CETIN Group. Our assessment is that CETIN's SCP of 'bbb+' is stronger than the SCP of CETIN Group. Both subsidiary and parent have similarly strong operating profiles, but the subsidiary has much lower leverage.

Netherlands

We do not expect CETIN to raise new debt. The outstanding bond at CETIN was issued before CETIN Group was established and we expect it to be refinanced at CETIN Group level, as this is the primary entity at which financing for the whole CETIN Group is now managed.

CETIN Group's SCP of 'bbb' reflects the business mix of the company's network infrastructure (such as mobile towers, local access fixed line network and backhaul networks), leverage profile, financial policy and the structure of the markets in which its infrastructure operates.

Pure mobile tower operators such as Infrastrutture Wireless Italiane S.p.A. and Cellnex Telecom S.A. (both BBB-/Stable) have looser leverage thresholds than CETIN Group per rating band, reflecting greater stability and visibility in FCF, higher visibility of investment risks for growth projects, a higher share of mobile towers in each geographic market, lower exposure to technological obsolescence risks or greater geographic or cashflow scale.

Integrated telecoms operators such as BT Group plc and Royal KPN N.V. (both BBB/Stable) have tighter leverage thresholds per rating band than CETIN Group, primarily due to the inclusion of their retail units that carry higher risks in relation to areas such as sales volume and pricing, technological obsolescence, mobile spectrum costs and market competition. For CETIN Group, these commercial risks are partially shifted to other PPF TG customer-facing operations as a result of its long-term contracts with a high share of fixed fees on a take-or-pay basis.

Rating Sensitivities

CETIN Group

Factors that Could, Individually or Collectively, Lead to Positive Rating Action/Upgrade

- An upgrade would be dependent on an upward revision in the company's SCP combined with an upgrade in the rating of PPF TG and/or clearer operational or structural separation from parent, PPF TG.
- The SCP would be revised higher to 'bbb+' if: FFO net leverage is sustained below 3.5x (about 3.2x Fitch-defined net debt-to-EBITDA); cash flow from operations minus capex/gross debt is sustained above 8%-10%; or on visibility of medium-term competitive stability in the wholesale fixed-line market in the CR.

Factors that Could, Individually or Collectively, Lead to Negative Rating Action/Downgrade

- A downgrade in the rating of PPFTG or a downward revision of CETIN Group's SCP.
- The SCP would be revised lower if: FFO net leverage is trending sustainably above 4.0x (about 3.7x Fitch-defined net debt-to-EBITDA); EBITDA and FCF weaken on a sustained basis; or financial policy or legal covenants that ring-fence the company from PPF TG weaken significantly.

CETIN

Factors that Could, Individually or Collectively, Lead to Positive Rating Action/upgrade:

- An upgrade of CETIN Group's consolidated rating profile and IDR will lead to a similar upgrade of CETIN's ratings provided there are no changes to our assessment of the parent-subsidiary linkage between the companies.
- Evidence of operational and structural separation from CETIN Group, while its SCP remains above 'bbb'.

Factors that Could, Individually or Collectively, Lead to Negative Rating Action/Downgrade:

 A downgrade in the rating of CETIN Group may lead to similar downgrade of CETIN's ratings. This would likely be driven by a weakening of CETIN's competitive position, especially in the CR, leading to declining EBITDA and weak FCF generation over the medium term.

Netherlands

Liquidity and Debt Structure

Comfortable Liquidity: CETIN Group generates strong cash flow and we expect the FFO margin to be around 42% in 2022-2025. This is supported by good revenue visibility. Further liquidity is provided by a committed EUR200 million revolving credit facility due 2026. The company's next maturities for its bank loans and senior unsecured bonds will be in 2023 (CZK4,866 million/EUR197 million bond at CETIN) and 2026 (EUR955 million loan at CETIN Group).

ESG Considerations

Unless otherwise disclosed in this section, the highest level of ESG credit relevance is a score of '3'. This means ESG issues are credit neutral or have only a minimal credit impact on the entity, either due to their nature or the way in which they are being managed by the entity. For more information on Fitch's ESG Relevance Scores, visit www.fitchratings.com/esg

Key Assumptions

Fitch's Key Assumptions Within its Rating Case for CETIN Group

- Revenue of around EUR1.09 billion in 2022, gradually increasing to EUR1.15 billion by 2025
- Fitch-defined EBITDA margin of 50.5% in 2022, gradually increasing to 55.6% by 2025
- Capex about 34%-37% of revenue in 2022-2025
- Dividend payments at 100% of Fitch-defined pre-dividend FCF

How to Interpret the Forecast Presented

The forecast presented is based on Fitch Ratings' internally produced, conservative rating case forecast. It does not represent the forecast of the rated issuer. The forecast set out above is only one component used by Fitch Ratings to assign a rating or determine a rating outlook, and the information in the forecast reflects material but not exhaustive elements of Fitch Ratings' rating assumptions for the issuer's financial performance. As such, it cannot be used to establish a rating, and it should not be relied on for that purpose. Fitch Ratings' forecasts are constructed using a proprietary internal forecasting tool, which employs Fitch Ratings' own assumptions on operating and financial performance that may not reflect the assumptions that you would make. Fitch Ratings' own definitions of financial terms such as EBITDA, debt or free cash flow may differ from your own such definitions. Fitch Ratings may be granted access, from time to time, to confidential information on certain elements of the issuer's forward planning. Certain elements of such information may be omitted from this forecast, even where they are included in Fitch Ratings' own internal deliberations, where Fitch Ratings, at its sole discretion, considers the data may be potentially sensitive in a commercial, legal or regulatory context. The forecast (as with the entirety of this report) is produced strictly subject to the disclaimers set out at the end of this report. Fitch Ratings may update the forecast in future reports but assumes no responsibility to do so. Original financial statement data for historical periods is processed by Fitch Solutions on behalf of Fitch Ratings. Key financial adjustments and all financial forecasts credited to Fitch Ratings are generated by rating agency staff.

Corporates Ratings Navigator Telecommunications

Operating Environment Strong combination of countries where economic value is created and where assets are located. Economic Environment Very strong combination of issuer specific funding characteristics and of the strength of the relevant local financial market. a+ Financial Access Systemic governance (eg rule of law, corruption; government effectiveness) of the issuer's Systemic Governance country of incorporation consistent with 'aa'. b-CCC+

Market Position

a-		Market Position	а	Very strong and sustainable market share in primary markets (> 30%).
bbb+	T	Competition	bbb	Primary markets characterized by medium competitive intensity and/or moderate barriers to entry.
bbb	ш	Scale - EBITDA	bb	>\$500 million
bbb-	ı			
bb+				

Technology and Infrastructure

а		Ownership of Network	а	Owns almost all of its infrastructure.
a-		Network and Service Quality	bbb	Solid network coverage and capacity, using some up-to-date technology, with average service quality.
bbb+				
bbb	П			
bbb-				

Profitability

aa-			Volatility of Cash Flow	а	Lower volatility and better visibility of cash flow than industry average.
a+		П	EBITDA Margin	а	35%
а			FFO Margin	а	30%
a-	r	Г			
bbb+					

Financial Flexibility

а-		Financial Discipline	а	Clear commitment to maintain a conservative policy with only modest deviations allowed.
bbb+	T	Liquidity	bbb	One year liquidity ratio above 1.25x. Well-spread maturity schedule of debt but funding may be less diversified.
bbb		EBITDA Interest Coverage	а	10.5x
bbb-	ı	FFO Interest Coverage	а	9.0x
bb+		FX Exposure	bb	FX exposure on profitability and/or debt/cash flow match. Some hedging in place.

How to Read This Page: The left column shows the three-notch band assessment for the overall Factor, illustrated by a bar. The right column breaks down the Factor into Sub-Factors, with a description appropriate for each Sub-Factor and its corresponding category.

Management and Corporate Governance

а-		Management Strategy	bbb	Strategy may include opportunistic elements but soundly implemented.
bbb+	1	Governance Structure	bbb	Good CG track record but effectiveness/independence of board less obvious. No evidence of abuse of power even with ownership concentration.
bbb		Group Structure	bbb	Some group complexity leading to somewhat less transparent accounting statements. No significant related-party transactions.
bbb-		Financial Transparency	bbb	Good quality reporting without significant failing. Consistent with the average of listed companies in major exchanges.
bb+				

Diversification

a-		Service Platform Diversification	bbb	Operates several service platforms in primary markets but one is dominant.
bbb+	T	Geographic Diversification	bbb	Average geographic diversification.
bbb				
bbb-	ı			
bb+				

Regulatory Environment

а-		Regulatory Risk	bbb	Moderate.
bbb+	т			
bbb

Waste & Hazardous Materials Management; Ecological Impacts	1	n.a.	n.a.
Exposure to Environmental Impacts	3	Networks exposed to extreme weather events (e.g. hurricanes)	Profitability

How to Read This Page

ESG scores range from 1 to 5 based on a 15-level color gradation. Red (5) is most relevant and green (1) is least relevant.

The Environmental (E), Social (S) and Governance (G) tables break out the individual components of the scale. The right-hand box shows the aggregate E, S, or G score. General Issues are relevant across all markets with Sector-Specific Issues unique to a particular industry group. Scores are assigned to each sectorspecific issue. These scores signify the credit-relevance of the sector-specific issues to the issuing entity's overall credit rating. The Reference box highlights the factor(s) within which the corresponding ESG issues are captured in Fitch's credit

The Credit-Relevant ESG Derivation table shows the overall ESG score. This score signifies the credit relevance of combined E, S and G issues to the entity's credit rating. The three columns to the left of the overall ESG score summarize the issuing entity's sub-component ESG scores. The box on the far left identifies the some of the main ESG issues that are drivers or potential drivers of the issuing entity's credit rating (corresponding with scores of 3, 4 or 5) and provides a brief explanation for the score.

Classification of ESG issues has been developed from Fitch's sector ratings criteria. The General Issues and Sector-Specific Issues draw on the classification standards published by the United Nations Principles for Responsible Investing (PRI) and the Sustainability Accounting Standards Board (SASB).

Social (S)

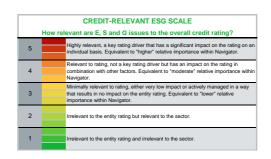

General Issues	S Score	Sector-Specific Issues	Reference
Human Rights, Community Relations, Access & Affordability	1	n.a.	n.a.
Customer Welfare - Fair Messaging, Privacy & Data Security	3	Data security; service disruptions	Competitive Position; Profitability
Labor Relations & Practices	3	Impact of labor negotiations and employee (dis)satisfaction	Competitive Position; Profitability
Employee Wellbeing	1	n.a.	n.a.
Exposure to Social Impacts	2	Social attitudes toward network infrastructure	Diversification; Technology and Infrastructure; Profitability

General Issues	G Score	Sector-Specific Issues	Reference
Governance (G)			
Exposure to Social Impacts	2	Social attitudes toward network infrastructure	Diversification; Technology and Infrastructure Profitability
Employee Wellbeing	1	n.a.	n.a.

DISCLAIMER & DISCLOSURES

All Fitch Ratings (Fitch) credit ratings are subject to certain limitations and disclaimers. Please read these limitations and disclaimers by following this link: https://www.fitchratings.com/understanding.creditratings. In addition, the following https://www.fitchratings.com/rating-definitions-document default. Published ratings, criteria, and methodologies are available from this site at all times. Fitch's code of conduct, confidentiality, conflicts of interest, affiliate firewall, compliance, and other relevant policies and procedures are also available from the Code of Conduct section of this site. Directors and shareholders' relevant interests are available at https://www.fitchratings.com/site/regulatory. Fitch may have provided another permissible or ancillary service(s) for which the lead analyst is based in an ESMA- or FCA-registered Fitch Ratings company (or branch of such a company) can be found on the entity summary page for this issuer on the Fitch Ratings website.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitchrelies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information hey provide to Fitch and to the market in offering documents and other reports, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters Further, ratings and forecasts offinancial and other information are inherently forward-looking and embody assump

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals dentified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligos, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue in certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single an

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001.

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item3 of FormNRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see https://www.fitchratings.com/site/regulatory), of FormNRSRO and as such are authorized to issue credit rating subsidiaries are not listed on FornNRSRO (the "non-NRSROS") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.
